Hereward 'the Outlaw'

After being exiled at 18, Hereward the Outlaw returned to Bourne some years later in early September 1067 only to find Normans occupying his father's house and his younger brother murdered. Hereward leapt from the shadows and slaughtered them. The next morning 15 Norman knights heads were hanging above the gate to his father's house

Our Mission Statement

It is the aim of the Society to make sure that new developments are of the highest possible quality and developers are made aware of the issues surrounding their

Schemes. Good design is only possible through a full understanding of any scheme's environment and urban context. We seek to safeguard our existing heritage and the many listed buildings from demolition or neglect.
